

# Ouse on Board – Pricing

---

## Day Hire:

Hire is available most days of the week without an Ouse on Board Skipper and subject to availability with one.

### Without Skipper

Monday - Friday £100 per day

Saturday or Sunday or bank holiday £130 per day

### With Skipper

Monday – Friday £150 per day

Saturday or Sunday or bank holiday £200 per day

Half days available at request.

## Overnight Hire:

Hire is available overnight for one or more nights if you wish to have a longer trip, perhaps with a Scout or Guide section. You are responsible for complying with your organisations regulations regarding nights away. Most overnight hire is without an Ouse on Board skipper and you would have a suitably trained person as part of your group. However if a skipper is required, please contact us for availability and a price. We find most hire periods are for weekends. If you require other times or additional days, please contact us for a quote.

Friday to Sunday £280

## Engine Hours:

For all hires we charge an additional £4 per hour when the engine is running.

## Payment:

We ask for a deposit of 30% to secure your booking. This must be paid 28 days prior to your booking date. After your hire we will take the engine hours and send you the final balance.

## Training Prices:

**RYA Inland Waterways Helmsman Course** is a 2 day course and costs £275 per person. The maximum number of students is 3.

**RYA Inland Waterways Crew Course** is a 1 day course and costs £100 per person. The maximum number of students is 4.

We can take 2 Helmsmen and 2 Crew course students at once (suitable for families). Contact us for more details.

**Scout and Guide training** to the level required by your relevant association is usually carried out over 2 consecutive days, however this does depend on your experience and ability. Please contact us to discuss pricing. This lasts for 5 years.

If you require a re-assessment only this is usually carried out over a few hours. It should be noted that the re-assessment is just that and no training will take place, it is not suitable for beginners or people who have never had any formal narrowboat training. Re-assessment discounts are available for regular users of our boat.

**Diesel Engine Courses** are a 1 day course (approx. 0830 to 1630) and cost £140. The maximum number of students is 6.
